

A Healer's Manifesto For 2020 and Beyond

Dear Source

Allow me to Become an Open Channel from the Heavens.

May this energy flow down through me into the Earth so that I can offer my own unique aspect of the Reweaving of our Earth

To Support This I commit to:

Setting regular, focused intentions
that are aligned with my soul path

Allowing all old beliefs to fall away and to
replacing them with love and self worth

Setting in place structures, rituals and nature based rhythms
that allow my life and business to flow gracefully and with ease

Embracing all support - including technologies -
that can Allow me to Be All Who I Came Here to Be

Allowing Courage and Divine Right Action to flow through me as I know
that is only by bringing my heart and my work into the physical
that true change can become manifest

I embrace my role as a pioneer in
anchoring these new energies on earth

May It Be So
